Dear Bill:

BOND COUNSEL ENGAGEMENT LETTER FOR 2015-2016

This is a Letter of Engagement to retain our services as bond counsel to the Levittown Union Free School District, in the County of Nassau, New York (the "School District") for the school year commencing **July 1, 2015** and ending **June 30, 2016**, in relation to (i) a capital project that may be submitted to the voters of the School District during the **2015-2016** school year, and (ii) the financing of an Energy Performance Contract. * * * *

FEES. We propose the following schedule of fees to pertain to (i) the submission of a capital improvement program/bond issue to the voters of the School District during the **2015-2016** fiscal year, and (ii) the financing of an Energy Performance Contract.

(i) Prospective Capital Project

Authorization: We propose to charge a "bond authorization fee" of not to exceed \$5,000 for the preparation of all requisite resolutions and legal notices pertaining to the submission of one or more propositions at an Annual or Special District Meeting and the subsequent authorization of financing. Said fee would include customary and usual advice and consultation concerning all pre-referendum scheduling and related matters and preparation of all legal proceedings prerequisite to actual borrowing, all as more particularly described above. In the unfortunate event any proposition(s) for capital projects is unsuccessful at referendum, we would charge a fair and reasonable portion of the "bond authorization fee" for services provided through the date of the defeated proposition(s).

Serial Bonds: In connection with the sale of serial bonds, including the preparation of documentation, including the public sale authorization and the legal notice of sale, and for review of the official statement prepared in connection with the public offering of School District securities, we will charge a "bond sale fee" of \$5,500, plus a "per bond fee" based on the amount of bonds sold <u>at any one time</u>, calculated at the rate of \$1.25 per \$1,000 principal amount of bonds sold up to \$15 million, \$1.00 per \$1,000 principal amount of bonds sold in excess of \$15,000,000 and up to \$30,000,000, and 75¢ per \$1,000 principal amount of bonds sold in excess of \$30,000,000. Said fee will include bond referendum scheduling information, advice and consultation, and all other usual and customary services expected to be rendered in connection with the sale of serial bonds of the School District.

Bond Anticipation Notes: In the event bond anticipation notes are issued to provide temporary financing, and whether or not serial bonds are ultimately issued, a fee of \$750 will apply to bond anticipation notes in amounts of \$1,000,000 or less, sold though an informal negotiation process and not requiring an official statement. In the alternative, for any bond anticipation notes which are sold pursuant to customary formal public sale procedures, which may require the preparation and circularization of an Official Statement and a Notice of Sale, and corresponding additional documentation and service provided by Bond Counsel, we will charge a fee of \$3,500 plus an amount based upon the dollar amount of bond anticipation notes sold <u>at</u> <u>any one time</u>, calculated at the rate of 75¢ per \$1,000 principal amount of notes sold up to \$15,000,000, 50¢ per \$1,000 principal amount of notes sold in excess of \$15,000,000 and up to \$30,000,000, and 25¢ per \$1,000 principal amount of notes in excess of \$30,000,000.

Related Disbursements: The foregoing fees do not include our out-of-pocket disbursements, such as duplicating, FedEx and other delivery service charges, preparation and filing of IRS 8038 Reporting Forms (\$125 for notes and \$250 for bonds), word-processing, and preparation of book-entry securities, the aggregate amount of which is usually nominal, but not subject to precise statement in advance.

We charge \$325 for the initial book-entry instrument for each bond issue (\$215 for the initial instrument for each note issue), and \$25 for each additional bond instrument and \$15 for each additional note instrument. Such charge includes our costs of security preparation, as well as our services in delivering such securities to The Depository Trust Company in escrow pending a closing. All services provided by outside vendors (express delivery and messenger service) are billed at actual cost to the firm. We charge \$50 per instrument for note instruments prepared in other than book-entry format.

(ii) Energy Performance Contract

In connection with the financing of the Energy Performance Contract entered into by the School District and Johnson Controls, Inc., ("Johnson"), our services include:

- (i) review of the final Energy Performance Contract Agreement, and any subsequent amendments thereto (the "Agreement") between the School District and Johnson;
- (ii) review of the resolution of the School District approving the Agreement and review of approvals received by the School District from the State Education Department;
- (iii) review of the Request for Proposals (for financing) prepared by the School District's financial advisor, Capital Markets Advisor LLC ("CMA"), and preparation of the Board of Education resolution for adoption on July 1, 2015, accepting the proposal of the successful financial institution (Banc of America Public Capital Corp.) and delegating certain powers to the President of the Board of Education and other officers of the School District in connection therewith;

- (iv) review of draft(s) of the lease/purchase agreement(s) and the fund agreement(s) with Banc of America Public Capital Corp. ("BofA);
- (v) preparation of the Tax Certificate and the Form 8038-G of the Internal Revenue Service;
- (vi) review of all pertinent documentation, including documentation submitted to the State Education Department;
- (vii) participation in various telephone discussions with CMA, School District officials, the School Attorney, Johnson, and BofA;
- (viii) drafting of other documents and proceedings in connection with all of the foregoing, as necessary;
- (ix) rendering of our final approving opinion addressed to the School District as to the tax exempt status of the interest component on the lease payments to be made by the School District, and any other matters; and
- (x) advice and consultation in connection with the foregoing and related matters.

We generally charge a fee of \$5,500, *plus* an amount based on the principal amount of the energy performance contract financing calculated at the rate of \$1.25 per \$1,000 principal amount of the lease. Said fee includes all of our customary and usual out of pocket expenses.

* * * *

The fees provided herein for bonds and bond anticipation notes shall apply over a multi-year period to any obligations authorized and/or issued in the **2015-2016** fiscal year, unless and until such fees are modified by mutual consent.

* * * *

The fees described above do not, of course, include the drafting of legislation or the handling of litigation, none of which is necessary or to be anticipated in an ordinary financing; or assistance in responding to SEC initiatives or inquiries, IRS audits, or any related matters. It is our practice to submit a bill for our services rendered in connection with any issue within ten days following a closing.

* * * *

This agreement is terminable at will on thirty (30) days' notice and the District's responsibility at termination would be to pay only those fees and expenses incurred up to the date of termination.

Should the terms hereof be acceptable, may I kindly ask that the President of the Board of Education acknowledge the acceptance of the terms of our engagement by signing where provided below, and returning a signed copy of this letter to us.

With kindest personal regards, I am

Very truly yours,

Martin A. Geiger

RE: Levittown Union Free School District, New York Financial Advisory Services For 2015-2016

Dear Bill:

We are pleased to submit a proposal to act as financial advisor to the Levittown Union Free School District. Our advice and technical expertise, based on a strong foundation of knowledge and experience, will translate directly into a lower borrowing cost and a seamless financial transaction for the District.

Capital Markets Advisors, LLC is an independent public finance advisory firm. We represent Counties, Cities, Towns, Villages, School Districts and Fire Districts throughout New York State. Providing financial advice in the marketing of your debt obligations is our only business activity. We are not affiliated with any financial institutions, so therefore, our advice is unencumbered by any possible conflict of interest.

Our service to be performed in connection with the marketing of bonds and notes for the District includes but is not limited to the following:

1. STRUCTURE ISSUE

- Meet with appropriate District officials to formulate and discuss a financing plan and timeline.
- Provide advice on the implications of the Tax Reform Act as it relates to the structure and timing of tax exempt borrowings.
- Prepare estimated debt service schedules to illustrate the impact of the proposed financing. Recommend and analyze various financing alternatives.
- Provide advice on the structure and timing of bond and note issues to assure that the maximum available State building aid will be received in a timely manner.
- Prepare a finalized consolidated maturity schedule for submission to the School District and Bond Counsel for approval.
- Advise District as to estimated borrowing rates and reinvestment rates. Suggest methods to maximize allowable arbitrage earnings and reduce issuance costs.
- Coordinate activities of the proposed financing with Bond Counsel.
- Market timing.

2. PREPARATION OF OFFERING DOCUMENTS

- Assemble the information necessary to prepare the Official Statement from annual and other reports, and by interviewing District administrators.
- Prepare and write the Official Statement in a format that will be widely accepted by the underwriting and banking community to garner the greatest possible number of competitive bids.
- Write the Notice of Sale including bid specifications and suggested bid form.
- Submit drafts of the Official Statement and Notice of Sale to District Officials and Bond Counsel for review.
- Final editing of offering documents and supervision of the timely distribution of documents.
- Assure compliance with Securities and Exchange Commission regulations concerning the preparation and distribution of offering documents.
- Prepare and file the Debt Statement with the New York State Department of Audit & Control.

3. PRE-SALE MARKETING ACTIVITIES

- Advise as to the availability and/or desirability of obtaining a credit rating on the Bonds or Notes. If a credit rating is suggested and/or desired, we will take all the necessary steps to apply for one and follow up with the credit rating agency to insure that the best possible credit rating is obtained.
- Advise as to whether Municipal Bond Insurance is obtainable or advisable. Prepare application(s) for insurance as appropriate. We have an excellent relationship with key personnel at the various bond insurance agencies and would be able to determine the availability and cost of such insurance.
- Alert key underwriters, institutional investors and commercial banks to the forthcoming issue.
- Once the offering documents are completed and printed, we supervise the distribution of those documents to our own list of potential purchasers not only in New York State, but throughout the country. We have found that fostering the greatest competition for the Bonds or Notes at public sale will translate into the lowest possible borrowing cost on a given day.
- Arrange for the publication of the Notice of Sale in the Bond Buyer, a financial newspaper with a wide circulation within the municipal underwriting community.

4. SALE OF OBLIGATIONS

- We will conduct the sale to insure that all bids received comply with the bid specifications.
- After the bids are received, we will subject same to computer analysis to confirm the net interest cost calculations and ascertain the low bidder.
- Consult with District officials to assist in making the formal award.
- Notify the winning bidder of the award and compile the necessary information for the preparation of the closing documents.

5. POST SALE ACTIVITIES AND DELIVERY OF OBLIGATIONS

- Coordinate the preparation and execution of the Bond and Note certificates and closing documents with District officials and Bond Counsel.
- Notify the winning bidders in writing of delivery arrangements and the transfer of funds.
- Make pre-application to the Depository Trust Company (DTC) for processing of the securities as book-entry-only and coordinate closing activities with DTC.
- Supervision of the preparation, printing and distribution of the "final" Official Statement in accordance with S.E.C. regulations.
- On the day of closing, confirm that the proceeds have been received by the District and that the securities have been released through DTC.
- Provide actual debt service schedules.

I would like to point out that our scope of available services goes well beyond the preparation of an offering statement and the usual technical aspects that are necessary to bring a debt issue to market, We have the resources and personnel in-house to provide extensive computer financial analysis and modeling. Our clients use as a resource to explore innovative financing techniques, refunding opportunities and long-term debt capacity analysis. Our successful approach to "rating agency presentations" has benefited our clients by improved bond ratings which will lead to lower interest rates. We also offer our clients assistance in complying with the S.E.C.'s continuing disclosure requirements.

Prior to the public referendum for the proposed capital project, we will be more than happy to meet with the administration and/or Board of Education to formulate a financing plan for the project. We will prepare a preliminary financing plan and tax rate impact analysis. We will assist the District in publicizing and explaining the project to residents through either the print medium or public meetings. If the project is not approved at the public referendum or if the Board does not proceed with the project there would be no obligation on the part of the School District for any schedules or preliminary work which we undertake.

Attached hereto is a partial listing of our clients and I encourage you to contact them concerning our qualifications and expertise.

Our fee for bond anticipation notes and/or tax anticipation notes is \$6,000 per issue. Our fee for an approximate \$10 million lease financing would be \$7,500. Our fee to provide continuing disclosure pursuant to S.E.C. Rule 15c2-12 is \$1,100 if we have prepared an Official Statement for the District in the past 12 months and \$1,950 if we have not. Our fee for material event notices is \$250 per notice. Our fees are all inclusive for our professional services. Other fees that are related to a bond or note sale and are not included in our proposal but would be billed to the School District are legal advertisement, credit rating fee, printing and mailing expenses, and legal fees.

We have successfully represented the School District in the past and look forward to working with you in the future.

If you have any questions please contact me.

Very truly yours

Robert M. Kerr

We will conduct our compilation in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants.

A compilation differs significantly from a review or an audit of financial statements. A compilation does not contemplate performing inquiry, analytical procedures, or other procedures performed in a review. Additionally, a compilation does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; tests of accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, the examination of source documents (for example, canceled checks or bank images); or other procedures ordinarily performed in an audit. Accordingly, we will not express an opinion or provide any assurance on the financial statements being compiled.

Material departures from accounting principles generally accepted in the United States of America (GAAP) may exist and the effects of those departures, if any, on the financial statements may not be disclosed. In addition, a disclosure required by GAAP may be omitted. Notwithstanding these limitations, you represent that you have knowledge about the nature of the procedures applied and the basis of accounting and assumptions used in the preparation of the financial statements that allows you to place the financial information contained in the statements in the proper context. Further, you represent and agree that the use of the financial statements will be limited to members of management with similar knowledge.

These financial statements will not be accompanied by a report, and you represent and agree that they are intended solely for your information and use and are not intended to be used by third parties. You also represent and agree that you will not distribute the statements to such third parties.

Our engagement cannot be relied upon to disclose errors, fraud, or illegal acts that may exist. However, we will inform the appropriate level of management of any material errors, and of any evidence or information that comes to our attention during the performance of our compilation procedures that fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our compilation procedures regarding illegal acts that may have occurred, unless they are clearly inconsequential. We have no responsibility to identify and communicate deficiencies in your internal control as part of this engagement.

The other data accompanying the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information will be compiled from information that is the representation of management. We will not audit or review the supplementary information and, accordingly, we will not express an opinion or provide any assurance on such data.

Board of Education and Audit Committee Levittown Union Free School District Administrative Office 150 Abbey Lane Levittown, New York 11756

Dear Members of the Board and Audit Committee:

We are pleased to confirm our understanding of the nature and limitations of the services we are to provide for the Levittown Union Free School District (District) for the year ending June 30, 2016. We will perform a risk assessment and provide services for the District as follows:

Risk Assessment

We will perform a risk assessment of the District's business operations for the year ending June 30, 2016. Our risk assessment will be in accordance with generally accepted auditing standards and guidelines promulgated by the Department of Audit and Control and Education Department of the State of New York. Our risk assessment will include identification of the District's audit areas together with its policies and procedures, the internal controls currently in effect, as well as those that might otherwise be required or recommended.

We plan to begin our procedures on approximately September 1, 2015, and unless unforeseeable problems are encountered, the engagement should be completed by November 30, 2015.

Report

We will communicate the results of our risk assessment in a formal report. We will identify risks and related controls. We will also suggest ways in which the District might improve its risk management system regarding financial reporting and management controls including the internal controls currently in effect, as well as those that might otherwise be required or recommended. These reports are intended for internal use only and should not be used for any other purpose.

The purpose of these reports is to assist the Audit Committee in improving the process by which the District monitors and manages its risk. However, it is ultimately the District's responsibility to assess the adequacy of its risk management system and any of our suggestions.

Year ending June 30, 2016 Page 2 of 3

<u>Fee</u>

Our fee for the risk assessment and report thereon will be \$10,000, which is based on the fee quoted in our proposal dated May 5, 2015.

At the conclusion of the engagement, we will require a representation letter from management that, among other things, will confirm management's responsibility for the operations of the departments reviewed during this engagement in accordance with District policies and procedures.

Testing and Assessment of Selected System(s)

The testing and assessment of selected systems is variable and dependent upon the results of the risk assessment that we will perform in the initial phase of our engagement. The results of the risk assessment will be discussed and reviewed with the Audit Committee so as to arrive at a consensus as to the higher-risk areas that should be subject to testing and further risk assessment procedures. We will determine the extent and timing of these procedures in consultation with the Audit Committee.

Report

We will communicate the results of our internal audit (i.e., testing) in a formal report. As a result, we will suggest ways in which the District might improve its internal controls currently in effect, as well as those that might otherwise be required or recommended. These reports are intended for internal use only and should not be used for any other purpose.

Fees

Estimated time for internal audits and fees will be refined after the preparation of a comprehensive risk analysis, and when the District's Audit Committee decides on the detailed nature and scope of the assignment. Other factors to be considered include the desired level of coverage of individual school buildings, functions, departments, level of assurance desired (i.e., nature and extent of tests performed), and other discretionary factors.

We will come to an agreement of an estimate with the Audit Committee prior to commencement of the work. Based upon its review of the risk assessment, the Audit Committee will be responsible for the areas to be included in the audit plan. The fee will be based upon the estimated time and the following hourly rate schedule (in effect through June 30, 2016):

| Partner | \$ 200 |
|---------|--------|
| Manager | 165 |
| Senior | 135 |
| Staff | 115 |

Our fee estimate is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the engagement. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs. Our invoices will be rendered as work progresses based on hours of work completed and are payable on presentation. If for any reason we are unable to complete our engagement, we will not issue a report as a result of this engagement.

PURCHASING POLICY AND PROCEDURES MANUAL

INTRODUCTION

The objective of the Board of Education is to establish Purchasing policies and procedures for the procurement of goods and services economically and efficiently of the appropriate quality, in the appropriate quantity, from the most appropriate source, at the best possible price, in compliance with all applicable federal, state and local requirements, and to ensure that all purchases fall within the framework of budgetary limitations.

The Board seeks to purchase competitively, without prejudice, favoritism, improvidence, extravagance, fraud or corruption. It is the policy of this District that all qualified suppliers shall have equal opportunity to bid on the requirements of the School District.

The Purchasing Manual has been prepared at the direction of the Board of Education as a statement of policy on which our purchasing practices and procedures are based. It will serve as a guide to the Board, to our staff and to interested residents of the District.

PURCHASING POLICY AND REGULATIONS

GENERAL

The Purchasing Agent shall be responsible for developing and administering the purchasing programs of the district. Yearly, the Board of Education appoints a Purchasing Agent for the district. In his/her absence, the Board has designated the Assistant Superintendent for Business and Finance to act as Purchasing Agent.

Competitive bids or quotations shall be solicited in connection with all purchases as defined by this policy and applicable law. Contracts shall be awarded to the lowest responsible bidder complying with specifications and with other bidding conditions stipulated by Section 103, General Municipal Law, except as permitted by law.

All purchase contracts for materials, equipment, or supplies involving an anticipated expenditure of or over \$20,000 annually, and all public work contracts involving over \$35,000 shall be put out for bid and awarded on the basis of competitive bidding. Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law \$163. Other exceptions to competitive bidding are outlined below. The Purchasing Agent or her designated representative together with at least one other individual, is authorized to open bids and record the same pursuant to law, and will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

Opportunities shall be provided to all responsible suppliers to do business with the school district. Suppliers whose place of business is situated within the district may be given preferential consideration only when bids or quotations on an item or service are identical as to price, quality and other factors.

Where permitted by law. purchases will be made through available cooperative BOCES bids, or by "piggybacking" onto contracts of the United the New York State Office of General Services (OGS). departments or agencies of New York State. and New York State county. or any state or any county or political subdivision or district therein, whenever such purchases are in the best interests of the District or will result in cost savings to the district. In addition, the district will make purchases from correctional institutions and severely disabled persons through charitable or non-profit-making agencies, as provided by law.

In accordance with law, the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats. The term "alternative format" shall mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an

accommodation for a disabled student enrolled in the district (or program of a BOCES), including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file in a format compatible with alternative format conversion software that is appropriate to meet the needs of the individual student.

The Board is also aware of the need to reduce exposure of students and staff to potentially harmful chemicals and substances used in cleaning and maintenance. In accordance with law, regulation and guidelines set forth by the Office of General Services (OGS), the district will purchase and utilize environmentally sensitive cleaning and maintenance products in its facilities whenever feasible. Cleansers purchased must, first and foremost, be effective so that the district may continue to purchase non-green products as necessary. Environmentally sensitive cleaning and maintenance products will be procured in accordance with standard purchasing procedures as outlined in this policy and regulation.

In order to ensure that the district avails itself of advantageous purchasing opportunities, the Board authorizes the Purchasing Agent to represent the district in applying for federal programs designed to discount prices for goods and services. Specifically, the Purchasing Agent will abide by the rules and regulations associated with applying for telecommunications service discounts through the Universal Service Fund (E-Rate), in addition to complying with the local purchasing policies set forth by the Board. As with all purchasing activity, appropriate documentation of the application and purchase through any federal program will be maintained by the business office.

<u>PURCHASE CONTRACT</u> is a contract involving the acquisition of commodities, materials, supplies or equipment.

<u>PURCHASE WORK CONTRACT</u> is a contract involving services, labor or construction and material.

<u>PURCHASE ORDERS OVER-</u>\$10,000 will be shared with the Board of Education prior to final approval. Any purchase order questioned will be held until sufficient information is presented to satisfy the question. If necessary, the purchase order will be presented for review to the School Board. Upon approval by the Board, the purchase order will be processed. A formal motion is not necessary unless specifically requested and seconded.

PURCHASING PROCEDURES

GENERAL MUNICIPAL LAW, SECTION 103

A. <u>DETERMINING WHETHER PROCUREMENT IS SUBJECT TO</u> COMPETITIVE BIDDING

- 1. The Purchasing Agent will first determine if a proposed procurement is a purchase contract or a contract for public work, and whether the amount of the procurement is above the applicable monetary threshold stated previously.
- 2. The Purchasing Agent will document the basis for any determination that competitive bidding as outlined above, is not required by law. The following are exceptions to the competitive requirements:
 - a. EMERGENCIES: Instances wherein the procurement of goods or services arises out of an accident or other unforeseen occurrence or condition whereby circumstances affecting public buildings, public property, the life, health, safety or property of inhabitants are involved. A Memorandum to the Superintendent and Board of Education shall explain how an emergency purchase meets the above criteria, and the Board of Education shall pass a resolution declaring an emergency prior to the purchase, if feasible. The district will make the purchases at the lowest possible costs, seeking competition by informal solicitation of quotes to the extent practicable under the circumstances. Records of verbal or written quotes will be maintained with the purchase requisition.
 - **b.** <u>PURCHASES FROM PREFERRED SOURCES</u>: These include CORCRAFT, Industries for the Blind of New York State, New York State Industries for the Disabled, Office of Mental Health and the U.S. Department of Veterans Affairs.
 - **c.** <u>SOLE SOURCE ITEMS</u>: These are procurements for which there is no possibility of competition. Documentation will be attached to the purchase requisitions indicating that two additional vendors have been contacted and were unable to provide the required items.

- **d.** PURCHASES FROM GOVERNMENT CONTRACTS: New York State Contracts, County Contracts, BOCES (after approval by Resolution by the Board of Education), Municipal Cooperative Agreements, Surplus and second-hand supplies, material or equipment purchased from the federal government, State of New York, or any other political subdivision within the State of New York.
- e. <u>INSURANCE</u>: The district will adopt insurance practices that will obtain the best coverage for the lowest cost. The district has the option of requiring formal request for proposals (RFP); documentation would include bid advertisements, specifications and awarding resolution. Written or verbal quotation forms could serve as documentation if formal RFP is not required. Contractors/Vendors shall not commence any work until all required insurance has been obtained and a Certificate of Insurance provided.
- **f.** <u>PERISHABLE ITEMS</u>: The following items need not be grouped meats and provisions, fresh produce, frozen foods, milk, livestock, etc.
- **g.** <u>UTILITIES</u>: Gas or Electric (Monopolies)
- **h.** <u>SMALL PROCUREMENTS</u>: Purchases and/or contracts below New York State limits are also exempt but must adhere to all other policy and procedural guidelines.
- **i.** <u>STATE-MANDATED OPERATIONS</u>: Those that require certification of contracts, such as inspection of underground gas tanks.
- **j.** <u>TESTING</u>: The acquisition of products for testing evaluation purposes. Such testing will be coordinated and documented.
- **k.** PROFESSIONAL SERVICES: Because of the confidential nature of these services, they do not lend themselves to procurement solicitation. For initial contracts, at least three professionals will be contacted and asked to provide proposals. Requests for proposals may be used to obtain the services of architects, engineers, accountants, lawyers, underwriters, fiscal consultants, energy performance contractors and other professionals.

B. INSTALLMENT PURCHASE CONTRACTS

Voter authorization is required for installment purchase contracting. Provisions of the law are as follows:

- 1. The Board of Education must approve the contract.
- 2. The contract is not exempt from competitive bidding.
- 3. If the district is financing the contract through annual budget appropriations payments, the down payment cannot be greater than ten percent (10%) of the full contract price.
- 4. The installment payments should be substantially equal to each other.
- 5. Payments under this type of contract may not be made with the proceeds of the municipal bonds or notes.
- 6. The contract must contain an executory clause to the effect that the contract will be in effect only when funds are available.
- 7. Such a contract cannot be considered as indebtedness under Section 20.00 or 135.00 of the Local Finance Law.

In excess of bid limits, the following is also subject to Municipal Law, Section 103 in procurement of equipment:

- 1. <u>LEASE/RENTAL OF PERSONAL PROPERTY</u>: Section 1725 of the Education Law provides that:
 - (a) The Board of Education may enter into an agreement for the lease of personal property.
 - (b) The Board of Education must adopt a resolution stating the reason why such agreement is in the best financial interest of the district.
 - (c) The agreement may not exceed the current year unless the voters approve such agreement.
 - (d) Such agreements are subject to competitive bidding requirements if the total amount over the term of the contract exceeds the \$20,000 limit for purchase established by Section 103, General Municipal Law.

Note Related Regulations: Sec. **16**-1725, **16**-1950(4)(y) Sec. **23**-101, **23**-103(1)(2), **23**-103(2), **23**-119

2. LEASE PURCHASING AGREEMENT FOR INSTRUCTIONAL EQUIPMENT:

The Board of Education may only enter into a lease purchase agreement for personal property as provided for in Section 1725-a of the Education Law which:

- (a) Authorizes such agreement for instructional equipment
- (b) Are subject to written approval of the Commissioner
- (c) Require formal bidding if the total amount over the term of the contract exceeds \$20,000
- 3. <u>INSTALLMENT PURCHASE OF EQUIPMENT, MACHINERY AND APPARATUS:</u>

Section 109(b) of the General Municipal Law enables school districts to enter into installment purchase contracts for data processing and office copying and other equipment, machinery and apparatus. The intent of the legislation is to:

- (a) Allow school districts to acquire ownership of the equipment upon completion of the contract.
- (b) Effect economies when the annual payment under an installment contract is less costly than an annual lease.

C. SPECIAL AREAS

1. COOPERATIVE BID ARRANGEMENTS:

School districts may enter into contracts with BOCES to furnish hardware, software, training and maintenance of instructional services for a period not to exceed five (5) years under Education Law (1950 Subdivision 4 JJ). This Law allows school districts to enter into such contracts, executed by the Boards of Trustees of the school districts and the Board of Cooperative Education Services. Contract is subject to the approval of the Commissioner.

- 2. <u>STANDARDIZATION</u>: Makes it possible for the governing board to standardize a particular type of material or equipment, but does not eliminate the necessity to conform to competitive bidding requirement. There is no longer a need for the inclusion of the term "or equivalent" after make or model. Where there are reasons of efficiency or economy to standardize, the Board of Education will determine by resolution (by 3/5 vote) there is a need to standardize purchase contracts for a particular type or kind of equipment, material or supplies.
- 3. TRANSPORATION AND CAFETERIA CONTRACTS: Covered by "Education Law" are subject to the same limits as "Purchase Contracts" except that transportation contracts may be entered into through an RFP instead of by competitive bid and, under special circumstances, may be renewed for up to five years.

GENERAL MUNICIPAL LAW, SECTION 104-b

D. PROCUREMENT OF MATERIAL UNDER BID LIMITS

Whenever feasible "Preferred Sources" and "Government Contracts" shall be used for purchases that are not required to be bid. When items are being purchased using "Preferred Sources" or "Government Contracts" and the amount of the purchase is greater than \$5000, the procedure below "Purchase of Commodities, Equipment of Goods" must be followed.

Although formal written quotes are not required on purchases below \$1,000 total, every attempt should be made to contact the vendors to procure the lowest prices possible. Written quotations must be on the vendor's letterhead. Faxed quotations are acceptable.

Quotations are to be obtained based on the unit cost of the item. Levittown Public Schools Code of Conduct

I. Introduction

The Board of Education ("Board") is committed to providing a safe and orderly school environment where students may receive and district personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, coaches, other district personnel, parents and other visitors is essential to achieving this goal.

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

In accordance with the **Dignity for All Students Act**, School District policy and practice must ensure that no student is subject to discrimination or harassment, based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender/gender identity or sex by school employees or students on school property, on a school bus, or at a school function.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that discipline when necessary is administered promptly and fairly. To this end, the Board adopts this code of conduct ("code").

Unless otherwise indicated, this code applies to all students, school personnel, parents and other visitors when on school property or attending a school function.

 - 5. Assisting another student in any of the above actions.
- H. Engage in off-campus misconduct that endangers the health and safety of students or staff within the school or substantially disrupts or is likely to substantially disrupt the educational process. Examples of such misconduct include, but are not limited to:.
 - 1. Cyber bullying, which consists of the repeated use of information technology, including, but not limited to, e-mail, instant message, blogs, chat rooms, pagers, cell phones, and gaming systems, to deliberately harass, threaten or intimidate others.
 - 2. Sexting, which consists of sending, receiving or forwarding sexually suggestive nude or nearly nude photos through text message or email.
 - 3. Threatening or harassing students or school personnel over the phone or other electronic medium.
 - 4. Using message boards to convey threats, derogatory comments or post pornographic pictures of students or school personnel.

VII. Reporting Violations

All students are expected to promptly report violations of the code of conduct to a teacher, guidance counselor, the building principal or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information, immediately to a teacher, the building principal, the principal's designee or the superintendent.

All district staff that is authorized to impose disciplinary sanctions is expected to do so in a prompt, fair and lawful manner. District staff that are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

VIII. Disciplinary Penalties, Procedures and Referrals

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- 1. The student's age.
- 2. The nature of the offense and the circumstances which led to the offense.
- 3. The student's prior disciplinary record.
- 4. The effectiveness of other forms of discipline.
- 5. Information from parents, teachers and/or others, as appropriate
- 6. Other extenuating circumstances.

As a general rule, discipline will be progressive; this means that a student's first violation will usually merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability.

A. Penalties

Students who are found to have violated the district's code of conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

- 1. Oral warning any member of the district staff
- 2. Written warning bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers, principal, superintendent
- 3. Written notification to parent bus driver, hall and lunch monitors, coaches, guidance counselors, teachers, principal, superintendent
- 4. Detention teachers, principal, superintendent
- 5. Suspension from transportation director of transportation, principal, superintendent
- 6. Suspension from athletic participation coaches, principal, superintendent (See Separate section on Extra-Curricular and Athletic participation)
- 7. Suspension from social or extracurricular activities activity director, principal, superintendent (See Separate section on Extra-Curricular and Athletic participation)
- 8. Suspension of other privileges principal, superintendent
- 9. In-school suspension principal, superintendent
- 10. Removal from classroom by teacher teachers, principal
- 11. Short-term (five days or less) suspension from school principal, superintendent, Board of Education

- 12. Long-term (more than five days) suspension from school superintendent, Board of Education
- 13. Permanent suspension from school superintendent, Board of Education.

B. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

- 1. Detention-Teachers, principals and the superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty only after the student's parent has been notified to confirm that there is no parental objection to the penalty and the student has appropriate transportation home following detention.
- 2. Suspension from transportation-If a student does not conduct himself/herself properly on a bus; the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance; the district will make appropriate arrangements to provide for the student's education. A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.
- 3. Suspension from athletic participation, extracurricular activities and other privileges-See Separate section on Extra-Curricular and Athletic participation
- 4. In-school suspension-The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher. A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the

- student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.
- 5. If the student violation involved the use, sale or possession of tobacco, the student may be required to enroll in a smoking cessation program as set forth in Section X (J)(5) of this document (page 26).
- 6. Teacher disciplinary removal of disruptive students
 - a. A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to:
 - i. short-term "time out" in an elementary classroom or in an administrator's office;
 - ii. sending a student to the principal's office for the remainder of the class time only; or
 - iii. sending a student to a guidance counselor or other district staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.
 - b. On occasion, a student's behavior may become disruptive. For purposes of this code of conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.
 - c. At the request of a teacher, and with the approval of Administration, a disruptive student may be removed from class for up to two days, during which time the student will be placed in a supervised area at the principal's discretion. The removal will apply to the class of the removing teacher only.
 - d. If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain

his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

- e. If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours.
- f. The teacher must complete a district-established disciplinary removal form or email notification and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form or email. If the principal or designee is not available by the end of the same school day, the teacher must leave the form or email notification with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.
- g. Within 24-hours after the student's removal, the principal or another district administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.
- h. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.
- i. The principal may require the teacher who ordered the removal to attend the informal conference.
- j. If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.
- k. The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

- i. The charges against the student are not supported by substantial evidence.
- ii. The student's removal is otherwise in violation of law, including the district's code of conduct.
- iii. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.
- 1. The principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.
- m. Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.
- n. Each teacher must keep a complete log (on a district-provided form) for all cases of removal of students from his or her class.
- o. The principal must keep a log of all removals of students from class.
- p. Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

7. Suspension From School

- a. Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.
- b. The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.
- c. Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate

- attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.
- d. The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.
 - i. Short-term (5 days or less) suspension from school
 - 1. When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.
 - 2. The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the pupil and the person in parental relation to the pupil shall, be authorized to present the pupil's version of the event and to ask questions of the complaining witnesses.
 - 3. The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

- 4. After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the Board of Education with the district clerk within 15 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.
- ii. Long-term (more than 5 days) suspension from school
 - 1. When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.
 - 2. The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.
 - 3. An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the district clerk within 15 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision

of the superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

iii. Permanent suspension

1. Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

e. Minimum Periods of Suspension

- i. Students who bring a weapon to school
 - 1. Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:
 - a. The student's age.
 - b. The student's grade in school.
 - c. The student's prior disciplinary record.
 - d. The superintendent's belief that other forms of discipline may be more effective.
 - e. Input from parents, teachers and/or others.
 - f. Other extenuating circumstances.
 - 2. A student with a disability may be suspended only in accordance with the requirements of state and federal law.
- ii. Students who commit violent acts other than bringing a weapon to school
 - 1. Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum

five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

2. Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

f. Referrals

i. Counseling

1. The Guidance Office shall handle all referrals of students to counseling.

ii. PINS Petitions

1. The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct that makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

iii. Juvenile Delinquents and Juvenile Offenders

- 1. The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court
- 2. Any student under the age of 16 who is found to have brought a weapon to school; or
- 3. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42)
- 4. The superintendent is required to refer students aged 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

X. Extra-Curricular and Athletic Participation

A. Misson Statement

The District recognizes the valuable contribution Extra-Curricular and interscholastic activities make to a student's growth and development. For many students, these activities not only provide learning activities in the social and cognitive domains but also often provide motivation for recalcitrant learners to come to school and actively participate in the academic day. To this end, the Levittown School District (hereinafter referred to as "the District") provides a variety of Extra-Curricular activities that complement the educational and athletic development of each student. Parents/guardians and the school community need to work together to provide these activities for our children. This code is not meant to usurp or restrict the responsibility of parents. The Levittown School District feels very strongly that parents must monitor their own children's behavior and impose their own discipline measures beyond those consequences outlined in this document.

This section applies to any and all Levittown School District students who wish to be involved in Extra-Curricular activities offered by Levittown Schools, including all clubs, organizations and athletics.

Extra-Curricular participation is a privilege that carries with it responsibilities to the school, to the team/club, to the student body, and to the community. When a participant accepts this privilege he/she must also live up to the code of conduct beyond that of the general student body, on and off school property. It is imperative that all students abide by the following:

- 1. Show pride and respect for their school and for their fellow students whom they represent, by being good citizens, good sports, and good students.
- 2. Be loyal to the school, its coaching/advisory staff and contribute to team/school spirit.
- 3. Condition properly so that they can safely and adequately meet the physical demands of a sport.
- 4. Follow training rules that are established by the school and the coach.
- 5. Be responsible for all equipment issued, take proper care of it and return it at the proper time.
- 6. Abide by and respect all decisions of officials.
- 7. Support all school activities to the best of their ability.

B. Eligibility

Extra-Curricular activities are open to all students of the Levittown School District. No person shall be excluded from participation in, be denied the benefits of, or be

discriminated against, under any educational program, or activity, or service, in this district, on the basis of race, color, sex, national origin, creed or religion, marital status, age, or disability.

C. Participation

- 1. In order to participate in extracurricular programs, students (Grades 7 12) must maintain academic standards as determined by the District.
- 2. In order to participate in Athletics, the student must attend an anti-hazing presentation at a time and place to be determined by the District's Athletic Director.
- 3. The District also recognizes the amount of time students have is finite and participation in Extra-Curricular and interscholastic activities may create situations where students are drawn away from their homework and studies by after school activities. Since both issues are important, the District will provide a program of report card monitoring and required extra help when students engaged in Extra-Curricular and/or interscholastic activities are found to be failing, or in jeopardy of failing in their studies. For specific information regarding this issue, refer to Levittown Public Schools Board of Education Regulation #5200, adopted on October 28, 1998 and Revised on February 17, 1999.
- 4. Except for those instances when a student is attending extra help sessions, attendance at all athletic practices and games is mandatory. Only the coach can excuse an athlete from either practice or games. It is the athlete's responsibility to notify the coach in the event it becomes necessary to miss a practice or a game. In the event of an unauthorized absence from or lateness to a game or practice, the athlete may be suspended from the team. Attending an extra help session is an excused absence.
- 5. During the participation in practices, meetings, events and games, all injuries must be reported immediately so that the coach/advisor can file the appropriate report. Students should be aware that parental consent must be available for emergency hospital treatment. It is understood that voluntary participation in all sports requires an acceptance of risk of possible injury. Students can help make the game safer by using techniques which are legal and proper and which will not cause injury. The coaching staff is made up of professionals certified by the State who will continually and repeatedly teach techniques that are fundamental to the sport.
- 6. Club advisors can mandate that a student must participate in a certain number of meetings/events in order to be counted among that club's membership, however students who attend extra help sessions will not have that counted against them, as long as they provide the advisor with proof of attendance at the aforementioned extra help sessions.
- 7. Students who fail physical education class cannot participate in athletic competition until a passing grade is attained.

D. Transportation

When the school provides transportation, all students will travel to and from the scheduled event on school transportation, unless they are released to their parents or

legal guardian due to an emergency or unusual circumstance. The decision to release a student to the parents or legal guardians is at the discretion of the advisor or coach.

E. Vacations/Absences From School

- 1. If a student misses scheduled events/activities/practices/games due to vacations with parents while school is in session, those absences will be considered unexcused.
- 2. In the event five consecutive days of school are missed, and a doctor's note stating the student is fit to participate in athletics is not presented, athletes must report to the school nurse and arrange for re-examination by the school physician before he or she may again join the team.
- 3. A student who has not been legally present in school may not participate in any Extra-Curricular activities, including proms, during that day.

F. Equipment

- 1. The Board of Education supplies equipment for athletic programs in the district. All equipment issued must be maintained in good condition and returned at the completion of the season, without any alteration by athletes. If lost or damaged, equipment must be replaced or payment must be made to the school district. It is the responsibility of each athlete to safeguard his/her equipment against theft. An athlete may not participate on another team until all equipment is handed in or paid for.
- 2. The school district is not responsible for students' personal property at Extra-Curricular activities.

G. Student and Parent Contract

- 1. The privilege of participation carries the responsibility of adherence to the Code of Conduct. As representatives of Levittown Schools, participants are expected to display exemplary conduct at all times, whether or not engaged in a formal activity.
- 2. Parents, participants and spectators are prohibited from smoking at school-sponsored events and on school grounds, whether it is inside the school or outside on the playing fields.
- 3. The Code of Conduct establishes the standards expected for participants in all Extra-Curricular activities. Failure to conform to the Code of Conduct will result in appropriate disciplinary action. A student agreement, parental permission slip and interscholastic health information form (athletics only) must be presented prior to Extra-Curricular involvement.

H. Enforcement

The Extra-Curricular Code of Conduct is enforced during the school year, twenty-four (24) hours a day, seven days a week, while participant is enrolled in high school or middle school, **as long as there is a nexus between the student's conduct and school**. The Code is also in effect and enforced during school-supervised Extra-Curricular

activities and events occurring over school recesses and the summer break. Consequences for code violations that occur in the summer/off-season will be enforced at the beginning of the school year/season.

I. Code of Conduct Violations

Violation of the Code of Conduct under this section will occur when students:

- 1. Conduct themselves in any way that would otherwise be a violation of the Levittown Schools Code of Conduct.
- 2. Are involved in threatening, hazing activities, and personal misconduct that involves police or court action whether during or outside school hours or sport seasons.
- 3. Are involved in bullying, cyber-bullying, discrimination or harassment in any form.
- 4. Attend a party or other gathering (unless accompanied at all times by the participant's parent/guardian) where alcohol or illegal drugs are available for consumption by the participant or any underage individual in attendance. A participant should leave a party or gathering immediately upon knowing of, or detecting by use of any of the participant's senses, the availability of alcohol or illegal drugs at the party or gathering. If a nexus is found to exist between school and the party or gathering, any student who decides to remain at the party or gathering may be questioned about his or her involvement and discipline measures may be enacted if a student has been found to be a participant or organizer during which illegal actions occur.
- 5. Consume, possess, use, purchase, sell, conceal, or transmit alcohol, any controlled substance, inhalant, paraphernalia, intoxicant, or any illegal drugs on school property or during school-sponsored events.
- 6. Use, possess or distribute tobacco products on school grounds or at school-sponsored events
- 7. Use, possess, or distribute firearms, dangerous weapon(s) or explosive devices on school grounds or at school-sponsored events.

J. Code Violation Consequences

In addition to suspension/detentions meted out by school administration, students may be subject to suspension from extracurricular activities, including but not limited to clubs and sports. Students who violate the Drug and Alcohol portion of this Code (offenses #4 and #5 listed above), and who wish to participate in any Extra-Curricular activity must, in addition to any other consequence provided herein, attend Substance Abuse counseling, to be arranged by the school district. Students who violate offense #6, listed above, may continue to participate in Extra-Curricular activities, provided they attend and continue to attend a smoking/tobacco cessation program and do so for a minimum of 10 weeks. Attendance in the program is subject to verification by school personnel.

K. Suspension

Students enrolled in Extra-Curricular activities who are under suspension from school may not participate in practices, contests, productions, performances, meetings, field trips, etc., sponsored by the Extra-Curricular activity.

L. Appeal Panel

- 1. An administrator shall be appointed by the Principal to investigate suspected violations of the Code of Conduct under this section, and shall render a decision within two weeks.
- 2. A student/parent may appeal the decision of the Principal or the Principal's designee by requesting review by an Appeal Panel.
- 3. The principal will establish the Appeal Panel annually. It will include, but is not limited to:
 - q An assistant principal/dean of students
 - q The building athletic director
 - q A guidance counselor
 - q A coach
 - q A co-curricular advisor
 - q The on-site drug and alcohol counselor.
- 4. The original administrator investigating the claim shall not be a voting member of the committee, but will make a full report as to his or her findings regarding this incident and may be present at all times.
- 5. A student charged with a violation of this Code will be given a written notice of violation. The student may appear before, and be heard by the Appeal Panel, with or without a representative.
- 6. The Panel may, in its discretion, conduct further investigation, including requesting the appearance before it, of the alleged violator and/or witnesses with information concerning the alleged violations.
- 7. Decisions rendered by the Appeal Panel will require a simple majority vote based on the evidence presented.
- 8. The student may appeal the decision by presenting a written request to the building principal within 2 days after receiving the notice of violation.
- 9. The Appeal Panel is not bound by formal rules of evidence of procedure in the conduct of its investigations and deliberations, and there is no right on the part of the participant to record the proceedings or to confront or cross-examine witnesses.
- 10. The Appeal Panel may withhold awards or honors pending its decision.
- 11. A participant may request review by the Assistant Superintendent for Administration of a decision by the Appeal Panel finding a Code violation. Such a request must be

in writing and given to the principal with 2 days of being notified of the Appeal Panel's decision. The participant shall have the right to appear before the Assistant Superintendent for Administration, with or without a representative. The Assistant Superintendent for Administration's decision in the matter is final. Pending the Assistant Superintendent's review and decision, the decision of the Appeal Panel shall remain in full force and effect.

XI. Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state laws and regulations.

- A. Authorized Suspensions or Removals of Students with Disabilities
 - 1. For purposes of this section of the code of conduct, the following definitions apply
 - a. A "suspension" means a suspension pursuant to Education Law § 3214.
 - b. A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
 - c. An "IAES" means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring. "Weapon" means the same as "dangerous weapon" under 18 U.S.C. § 930 (g) (w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except ... [for] a pocket knife with a blade of less than 2 1/2 inches in length."
 - d. "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

- **e.** "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
- 2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a. The Board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior, subject to the provisions of paragraph 4(d) of this Section.
 - b. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
 - c. The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - d. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student (a) carries or possesses a weapon to school or to a school function, (b) knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function, or (c) causes serious bodily injury to another student or staff member.
- 3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.
- 4. Change of Placement Rule
 - a. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- b. for more than 10 consecutive school days; or
- c. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
- d. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, if the Manifestation Team has determined that the behavior was <u>not</u> a manifestation of the student's disability, or if the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances or causing bodily injury to others.

- B. Special Rules Regarding the Suspension or Removal of Students with Disabilities
 - 1. The district's Committee on Special Education shall:
 - a. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES, for misconduct involving weapons, illegal drugs or controlled substances.
 - b. If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.
 - c. If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.
 - 2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth

in federal and state laws and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- a. The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:
 - i. conducted an individual evaluation and determined that the student is not a student with a disability, or
 - ii. determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.
- c. If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.
- 3. However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state laws and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.
- 4. The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or serious bodily injury because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

- 5. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
- 6. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.
- 7. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the Manifestation Team has determined that the behavior is not a manifestation of the student's disability.
- 8. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

C. Expedited Due Process Hearings

- 1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:
 - a. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - i. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, serious bodily injury, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.

- ii. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
- 2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.
- 3. Referral to law enforcement and judicial authorities
 - a. In accordance with the provisions of IDEA and its implementing regulations:
 - 1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
 - 2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to which a crime is reported.

XII. Corporal Punishment

Corporal punishment is any act of physical force or punishment upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

- 1. Protect oneself, another student, teacher or any person from physical injury.
- 2. Protect the property of the school or others.
- 3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XIII. Student Searches and Interrogations

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of "Miranda" -type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

The building principal (or, in the absence of, the principal's designee) may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Strip searches of students are prohibited.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

- 1. Name, age and grade of student searched.
- 2. Reasons for the search.
- 3. Name of any informant(s).
- 4. Purpose of search (that is, what item(s) were being sought).
- 5. Type and scope of search.
- 6. Person conducting search and his or her title and position.
- 7. Witnesses, if any, to the search.
- 8. Time and location of search.
- 9. Results of search (that is, what items(s) were found).
- 10. Disposition of items found.
- 11. Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

- 1. A search or an arrest warrant; or
- 2. Probable cause to believe a crime has been committed on school property or at a school function; or
- 3. Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- 1. They must be informed of their legal rights.
- 2. They may remain silent if they so desire.

Attachment: 2015-16 Code of Conduct (1720: District Code of Conduct)

3. They may request the presence of an attorney.

D. Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to immediate danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to immediate danger of abuse, the worker may remove the student without a court order and without the parent's consent upon providing the District with a signed written statement to that effect.

XIV. Visitors to the Schools

The Board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set, for such visits. The visitor must return the identification badge to the principal's office before leaving the building.
- 3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.

- 5. Teachers are expected not to take class time to discuss individual matters with visitors.
- 6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.

- 8. All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct.
