August 2009

Dear Parents/Guardians,

As the school year approaches, we are updating the telephone messaging service throughout **Levittown School District**. This new service is called **Connect-ED**.

This well respected and widely used service will enable the Levittown District to communicate with parents about emergency situations, school events and important issues impacting your child via personalized voice messages to your family's home, work or cell phones. Essentially, a school principal can make one phone call that reaches all of his or her students' families within minutes or a district message can be sent to reach all the students within minutes.

You will be receiving an information packet from your child's school. Please indicate the appropriate contact numbers. It is important that the school has all of your current telephone numbers so that you will not miss out on any important communications.

For more information, visit the district website at <http://www.levittownschoools.com> and click on [**Connect-ED**].

It is an honor to be serving you and our children here at Levittown. Thank you.

Sincerely,  
Ron Kister  
Director of Computer & Media Services
