III. PUBLIC BE HEARD

1 – Michelle Gartelman: *“I’ve seen the climate of our District change in regards to parent involvement and parent right and decision making processes, especially those that have to do with the health and safety of our children. Focus on the mental health crisis caused by COVID-19. Stand up for the kids and right what is wrong in this District. Take back control.”*

2 – Beth Lyons: *“As a food allergy parent, I’m always considering scenarios in which my child might be exposed to her allergens. In conjunction with her Doctor, an Allergy & Immunology Specialist, and administrators, we have a plan in place so that she is afforded a safe environment to receive an education. Medical exemptions should not be casually denied, especially after prior approvals because of a new District Doctor. We just want our children to be afforded the same opportunities and a safe environment as everyone else.”*

3 – Lillian Conroy: *“My 2nd grade child has a life threatening allergy, a 504 plan in place and is considered a child with a medical disability. Medical exemptions for my son were approved by the District for the past two years and this year, without change in circumstance, but change of District Doctor, they were denied. Please help our medically fragile children to stay safe.”*

4 – Joe Massoni: *“Who decided what was in Phase I of the American Rescus Plan and how would the money be spent? There’s money for 200 air conditioners for ventilation, but do these a/c’s have intake/outtake? Who’s going to pay for filter replacement which is required 2x a month? I don’t see anything about mental health. When you hear these moms talk, it’s like, heartbreaking. Someone needs to help them.”*

5 – Frank Jurs: *“Parents filed two lawsuits this week against the Department of Health, one was filed in the Supreme Court of Albany, the other was filed in the northern district of New York State. The time for coming up here and crying into a microphone in front of 10 people that don’t care what you are saying is over. If you really want something done, you need to call attorneys. You need to start filing lawsuits”.*

STATEMENT FROM BOARD OF EDUCATION RE: BUSING. *“Good evening. School Districts across the County are currently in the midst of a profound transportation challenge and the Levittown Public Schools is one of those Districts. This is a shortage of licensed bus drivers making it difficult to transport our students to and from school in an efficient manner. Bus routes have been consolidated, the length of the bus routes has increased and, due to the low ridership, late buses have been cut. We sympathize with our schools and our families and are understanding that the importance of school transportation, however, there are simply not enough drivers. Our transportation team has worked diligently to ensure that all students arrive to and from school in a safe manner. While the length of the transportation time has increased from past years, safe transportation is still our top concern. We will continue to evaluate our transportation needs and add buses where and when possible. Please understand that this situation is critical for many Districts, not just in Levittown. We are competing for licensed drivers against for-profit companies, however we will continue to actively recruit and train new drivers. If you know someone qualified or someone*

willing to be trained for a commercial driver's license, please have them visit our website to apply for the position. Thank you."
